LEAD POISONING

By the time there are symptoms, harm may have been done that will last your child's lifetime. Answer these questions to find out if your child is at risk for lead poisoning.

Does the child:

- | | | | |
|--|-----|---------|---------|
| 1. Live in (or lived in) or regularly visit a house built before 1950 with peeling or chipping paint?
This could include a day care, preschool, home of a baby-sitter, a relative's house, etc. | YES | NO | UNKNOWN |
| 2. Live in (or lived in) or regularly visit a house built before 1950 with recent (past 6 months), ongoing or planned renovation or remodeling? | YES | NO | UNKNOWN |
| 3. Have or had a brother or sister, housemate or playmate with lead poisoning? | YES | NO | UNKNOWN |
| 4. Live or ever lived with an adult whose job or hobby involves exposure to lead? (See chart) YES | NO | UNKNOWN | |
| 5. Eat, drink or use any home remedies that may contain lead? | YES | NO | UNKNOWN |
| 6. Live in one of the high-risk zip codes listed on the reverse side of this form? | YES | NO | UNKNOWN |

If you answered yes or unknown to any of these questions your child may be at HIGH RISK for lead poisoning. If you answered no to every question your child is at LOW RISK for lead poisoning.

POSSIBLE METHODS OF EXPOSURE

<p style="text-align: center;"><u>OCCUPATIONAL</u></p> <p style="text-align: center;">Auto repair Radiator repair Battery manufacturing or repair Bridge reconstruction worker Construction worker Plumber, pipe fitter Police officer Migrant farm worker Printing Glass manufacturing Plastic manufacturing Chemical manufacturing Rubber products manufacturing Steel welding and cutting Industrial machine operator</p> <p style="text-align: center;"><u>HOBBIES</u></p> <p style="text-align: center;">Car or boat repair Casting lead figures (toy soldiers, etc) Painting Furniture refinishing Making jewelry and pottery Making stained glass Lead soldering (eg electronics) Making lead shot, bullets, or fishing sinkers Target shooting at firing ranges</p>	<p style="text-align: center;"><u>ENVIRONMENTAL</u></p> <p style="text-align: center;">Ceramic ware or pottery Lead crystal Lead-soldered cans (imported) Lead paint Lead-painted homes Renovating or remodeling older homes Burning lead-painted wood Use of water from lead pipes Living near lead-related industries Soil / dust near industries and roadways</p> <p style="text-align: center;"><u>OTHER</u></p> <p style="text-align: center;">Asian cosmetics Food additives Folk remedies (Greta, Azarcon, pay-loo-ah, ghasard, Hai ge fen, Bali Goli Kandu, X-yoo-FA, Mai ge fen and poying tan)</p>
